

Found Object Color Wheel

Ms Valerie Montana Grades K-5

Found Objects Color Wheel

Using the color wheel to the right for reference, create your own color wheel using found objects.

The found objects could be pictures cut out of a magazine, the color found on a package, a napkin or other. Be creative!

How to start:

Draw a large circle on a white piece of paper

Using a ruler, divide the circle into 8 sections.
Cut and paste the colors in the correct order.
